

GLT Products manufactures its braided draw cords with customer requirements in mind. We use only first quality fiberglass.

Applications

- Draw cord for removable safety spray shield
- Draw cord for insulated flange or valve covers

Benefits

- Excellent chemical resistance
- Very high operating temperatures
- Will not burn or support flame
- Will not rot or support fungus
- Low stretch (less than 5%)
- Same material as most high-end jackets
- Many other braid constructions available

Data

Part Number:	GCTEFLONCORD
Material:	Round braided E-Glass Fiberglass
Coating:	PTFE
Diameter:	1/8"
Color:	Black
Operating Temperature:	550°F continuous
Tensile:	200 pounds minimum

In addition to draw cords, GLT Products manufactures individual coated yarn products for those companies seeking materials for high temperature, chemical resistant overbraids. Many other sizes of braided, PTFE coated fiberglass cord are available, ranging from .007 diameter flat or round. All values are typical and should not be used for writing specifications. Please consult GLT Products.
